

Basics of PowerPoint

A flock of white birds, possibly egrets or herons, is shown in flight against a light blue sky. The birds are captured in various stages of their wing strokes, with some fully extended and others partially folded. They are scattered across the frame, with a higher concentration on the left side. The birds have long, pointed beaks and dark legs. The overall scene is serene and dynamic.

Objectives

- Create presentations
- Add new slide and change slide and design
- Add text, images, art, and videos
